

Differentiation 101

Training Opportunities

For All Student Populations!
Presented by: Mary Beth Jaeger

TAKS, TAKS-A, TAKS-M, and TAKS-Alt! With so many different state assessments, general education teachers find themselves needing more assistance from the special populations teachers such as ESL, special education, 504, etc., in order to differentiate curriculum through accommodations or modifications. Participants will review the three basic types of differentiation available through content, instruction, and product within this workshop. Presenters will work with participants' individual lessons. Please bring a lesson that you will be teaching within the next two weeks.

Who: Elementary Level: Grades 1-5
Date: January 21, 2009
Workshop #0822323

Who: Secondary Level: Grades 6-12
Date: January 22, 2009
